Dear Commissioner Randall,

As a South Carolina citizen and my parents are utility ratepayers, I am appalled by the continual schedule delays and cost overruns in constructing this beondoggle of a project at V.C. Summer. Nine straight rate hikes! Seriously? I implore Public Service Commissioners to do their job and stand up for the citizens of our state—the ratepayers in your districts. Continuing to allow SCE&G, and Santee Cooper by extension as a co-owner, to fleece their ratepayers out of hard earned money to make up for the company's own imprudent mismanagement of building these nuclear reactors would be nothing short of a travesty. It would be nothing short of a disservice to the ratepayers of the districts you represent. As a ratepayer in this state, I joined tens of thousands of others in asking that you hear our cry. Demand that utilities pay for their own imprudent decisions themselves, just like you would for any other business model. Deny this last schedule delay and cost overrun.

Sincerely,

Spencer Karier
